

FLASHING SIGN SYSTEMS

Interactive Fob Accessories

In a Flashing Sign System™ scenario it may be desirable to access certain maintenance features quickly and in the field.

TraffiCalm offers three Fob options-

- Activation Fob [M75-SABRA-0000]
Activates system flashing at the press of a button
- Toggle Fob [M75-SABRA-000T]
Activates sustained flashing with one button press, deactivates flashing with two button presses
- Wi-Fi Reset Fob [M75-SABRA-000W]
Restores Wi-Fi availability for 2 hours, without having to access inside the controller cabinet

Details
