

Build America Buy America

To Whom It May Concern:

This letter serves as a conformance certification that all TrafficCalm® Driver Feedback Signs, Flashing Sign Systems, and Intelligent Warning Systems are manufactured in the United States and, as such, meet the requirements of the Build America Buy America Act.

On November 15, 2021, the Infrastructure Investment and Jobs Act, which includes the Build America, Buy America (BABA) Act was signed into law. The Act strengthens Made in America laws. This Act became effective on May 14, 2022. The U.S. Department of Transportation issued a transitional waiver on May 14, 2022 which expires on November 10, 2022.

All Department projects advertised after November 10, 2022 following Buy America preferences are required for all materials permanently incorporated into the project:

- All iron and steel used in the project are produced in the United States
- All manufactured products used in the project are produced in the United States
- All construction materials are manufactured in the United States

Therefore, after November 10, 2022, all Bulletin 15 approved manufacturers shall comply with the BABA Act requirements on all Department projects.

“Preliminary Guidance for Construction Materials,” “construction materials” includes: an article, material, or supply—other than an item of primarily iron or steel; a manufactured product; that is or consists primarily of:

- non-ferrous metals;
- plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables);
- glass (including optic glass);
- lumber; or
- drywall.

The Implementation Guidance also explains that “items that consist of two or more of the listed materials that have been combined together through a manufacturing process, and items that include at least one of the listed materials combined with a material that is not

listed through a manufacturing process, should be treated as manufactured products, rather than as construction materials.”

Agencies should consider ‘all manufacturing processes’ for construction materials to mean the final manufacturing process and the immediately preceding manufacturing stage for the construction material.”

No federal waiver from the Build America Buy America Act is required of TrafficCalm product submittals.

If you should need further information or services, don’t hesitate to contact me.

Thank you for your use of American made TrafficCalm products!

Sincerely,

Andy Pedersen
